

Support LE PAPILLON SOURCE EL4DEV

[Français](#)

[Español](#)

Distinguished Partners,

We invite you to be part of a transformative journey that transcends the traditional boundaries of innovation and social impact. **LE PAPILLON SOURCE EL4DEV** is an **international, societal, and innovative intellectual start-up** operating as a **consortium**. It is not just a **Think and Do Tank**; it is a beacon of hope and a catalyst for global change. Our unique approach to multidisciplinary collaboration and sustainable development transforms communities, territories, and the very fabric of society. Join us in this revolutionary participatory endeavor and be a driving force behind a brighter and more equitable future.

Our vision

At **LE PAPILLON SOURCE EL4DEV**, we envision a world where innovation, sustainability, and social cohesion are at the forefront of development. Our international collaborative multidisciplinary engineering program, **EL4DEV**, and its cohesive sub-programs, **LE PAPILLON SOURCE** and **THE MUNICIPALITIES COUNTER-ATTACK**, are designed to create self-sufficient and thriving communities. We aim to establish the **EL4DEV Confederation**, a supranational entity formed by a confederation of small municipalities worldwide with decentralized societal actions. It is also known as the **Green Empire of the East and the West**, a new societal paradigm integrating ecological balance, economic prosperity, and social justice, built through an international live-action role-playing game in Alternate Reality bearing the same name.

A consortium rather than a legal entity

The consortium agreement is a **cooperation contract intended to guide our highly collaborative research and innovation projects**. It brings together private partners (companies) and public partners (municipalities, universities).

Be a partner with us

Innovative Impact: Our initiatives are designed to be scalable and adaptable, ensuring a wide and lasting impact. By supporting us, you contribute to projects that transform local communities and set a precedent for global sustainability.

Global Approach: Our programs address various aspects of development, from agriculture and tourism to education and governance. This holistic approach ensures that we create integrated, sustainable, and beneficial solutions for all stakeholders.

Cutting-Edge Technologies: We utilize advanced technologies such as Big Smart Data and blockchain to ensure transparency, efficiency, and maximum impact of our initiatives, as well as real-time measurement. Our educational platforms and digital storytelling engage and empower individuals on a global scale.

Positive Publicity: Aligning with **LE PAPILLON SOURCE EL4DEV** enhances your brand's image as a leader in social responsibility and innovation. Our upcoming extensive media reach, including a dedicated Web TV project, will ensure that your support is visible and recognized worldwide.

Our initiatives

The Vegetal Calderas: These vertical agro-climatic and radionic structures serve as ecological sanctuaries and community centers. They beautify landscapes, support biodiversity, and provide educational and recreational spaces.

LE PAPILLON SOURCE: This sub-program offers small municipalities a unique opportunity for collaboration within the framework of **national societal Economic Interest Groups (EIG)**. Municipalities act as entrepreneurs by establishing multifunctional and agro-climatic experimental infrastructures, collectively funded and participatively designed by global populations through collaborative web platforms and intellectual and artistic events both in-person

and online. They also generate an economic model and enhance the visibility of the municipalities while breaking their isolation.

Transnational Intellectual Cooperation Events: These events bring together engineers, architects, researchers, innovators, and especially students from around the world to share ideas, develop solutions, and collaborate on projects that drive societal progress.

Transnational Artistic Cooperation Events: By fostering international artistic collaboration, we promote cultural exchange, creativity, and the development of art as a vehicle for our ideology and a powerful tool for societal transformation.

Community Engagement Programs: Through the sub-program **THE MUNICIPALITIES COUNTER-ATTACK**, we empower small municipalities to collaborate, share financial, material, operational, and intellectual resources, and develop infrastructure projects that enhance their resilience, sustainability, and financial autonomy.

Educational Platforms: Our digital tools and immersive transmedia storytelling create an engaging learning environment that fosters a deeper understanding of sustainability and social responsibility.

Le role en Small Municipalities in the Societal Diplomacy of the EL4DEV program

Small municipalities play a central and transformative role in the societal diplomacy of the **EL4DEV** program. This diplomacy, distinct from traditional

approaches focused on economy and power, emphasizes society and the environment and centers on human cooperation, empowerment, and solidarity at both local and international levels. They become major players in global transformation, proving that even the smallest territorial units can have a significant impact on the world stage. By supporting and actively participating in the initiatives of **LE PAPILLON SOURCE EL4DEV**, they contribute to building a fairer, greener, and more united future.

- **Local and International Cooperation Initiatives**

Small municipalities are the pillars of societal diplomacy. They form **Economic Interest Groups (EIG)** with a societal focus to finance and develop innovative infrastructures that serve as ecological and social hubs, catalyzing local development and strengthening connections between municipalities on a national and global scale.

- **Active Participation in the LE PAPILLON SOURCE Sub-Program**

The **LE PAPILLON SOURCE** sub-program enables small municipalities to become social entrepreneurs. They collaborate within the framework of **EIGs** to establish experimental agro-climatic infrastructures, participatively designed by local and international populations through online collaborative platforms.

- **Organization of Transnational Cooperation Events**

The municipalities participate in and organize transnational intellectual and artistic cooperation events. These events, held both online and in person,

bring together citizens from around the world to exchange ideas, co-create innovative solutions, and promote a new philosophical culture focused on solidarity and collaboration.

- **Empowerment and Sovereignty**

Thanks to the **EL4DEV** program, small municipalities gain autonomy and sovereignty. They become less dependent on traditional funding and centralized power structures. By pooling their resources and engaging in collective projects, they strengthen their ability to self-manage and thrive sustainably.

- **Visibility and International Influence**

By actively participating in societal diplomacy, small municipalities increase their visibility and influence on the international stage. They become models of sustainable development and cooperation, inspiring other communities around the world to follow their example. Their engagement in **EL4DEV** initiatives allows them to build global networks of solidarity and progress.

- **Promotion of Societal Diplomacy**

Small municipalities play a crucial role in promoting societal diplomacy, a form of diplomacy based on cultural, intellectual, and artistic exchanges rather than economic exchanges. They demonstrate that cooperation and solidarity can drive harmonious and equitable development, challenging the traditional paradigms of international diplomacy.

Sponsorship Opportunities and Grant Seeking

Sponsors benefit from extensive recognition on our platforms and events. Your contributions will be directly linked to specific projects, allowing you to showcase your commitment to sustainable development.

Grants include all types of assistance provided for the purpose of serving the public interest.

Call to Action

We invite you to join us on this visionary journey. By sponsoring **LE PAPILLON SOURCE EL4DEV**, you are not just investing in a program or a project; you are investing in a sustainable future. Together, we can create a world where innovation, sustainability, and social justice are the cornerstones of development.

Thank you for considering this partnership. We look forward to collaborating with you to make a lasting impact on the world.

Sincerely,

Paul Elvere DELSART

Founder and Visionary,

Think and Do Tank LE PAPILLON SOURCE EL4DEV

EL4DEV - The Age of Collaboration

The Grand White Paper of the **Think and Do Tank LE PAPILLON SOURCE EL4DEV**, a new **Intellectual Start-up** and **Social Innovation Lab** with **international action** and **concrete action plans**.

A 117-page book, 100% **FREE** to view and/or download online (no forms, no email request).

A Mechanism of National Cohesion for a Profound Transformation of Individuals, Communes/Municipalities, and Nations.

Fundamental Principles of a Concrete Solution to Societal Challenges.
